TERMS AND CONDITIONS

Be sure to print your order confirmation and include a copy in the box with your tool, and state as specific as possible any problems you are having with the tool(s).

Send your tool to: ITW Construction Service & Parts, Attention Repair department, 13825 W. Business Center Drive, Lake Forest, IL 60045

We can only return tools with the factory specified safety features installed and in operational order. Any missing safety features will be installed on tools before return shipment. You will be charged for the installation of missing safety features so please make certain they are installed before shipping us the tool(s).

- Pack tools securely using bubble wrap, Styrofoam packing, etc. ITW Construction Service & Parts is not responsible for damage incurred during shipping. Tools may be shipped UPS, Fed Ex, Parcel Post or whichever system is convenient for you.

If the tool is received in a condition that requires parts and repair service over the amount of \$115.00, dependent upon tool received, an estimate will be provided prior to making any repairs.

In the event you choose not to have the tool repaired, the tool will be returned to you un-assembled.
